

Stop That

Are you running your non-profit with Excel and Word? **Does your team struggle to process donations?** How about grants, campaigns, and thank you letters? How about managing donors? **Do charts and reports cause stress headaches?** Are you emailing files and lists to each other, always wondering which is current or correct? **Stop doing that.**

Start This

Imagine a team app that does all this for you. A single platform perfectly tailored to your non-profit needs. Manage and track your processes and data with ease. **Instant reports and analysis available anywhere, anytime, on any device.** The *Community* app is purpose built for non-profit teams and their projects. It's perfect for you. **Start doing this.**

ZWARM has been a lifesaver for our small non-profit, making the difficult easy, and the impossible a breeze. Highly recommend to all."

Laurie Gross-Schaeffer, Executive Director

Save Time

The *Community* app ties it all together for your entire team. **Enter your data once, and done.** Grants, donors and more are all linked up automatically, offering your team immediate and deep insights. **Maximize your time effortlessly.**

Save Money

The *Community* app is incredibly affordable. Just a single one-time heavily discounted setup fee, no recurring license or seat fees ever. Better yet, we offer all of our entire array of **tech services at a permanent 50% to all non-profits.**
